بسم الله الرحمن الرحيم

الحمد لله رب العالمين و الصلاة و السلام على أشرف المرسلين سيدنا محمد وعلى آله وصحبه أجمعين ... أما بعد:

✱ We followed - and every ardent for this country followed - with deep sorrow and concern the late events which occurred in dear Sinai which rocks any status of instability that happens in this dear and sensitive spot from the land of Egypt and the Islamic World, when everyone was surprised by the successive bloody violent practices – since it is not the first of its kind – from the police forces which resembled in the death of four of the sons of Sinai in two separate incidents and in circumstances that require the use of force and firearms which is bought from the money of the people to protect them rather than violating its sanctities and shed their blood for no guilt or fault.

✱ In the first incident a taxi escaping from an ambush which is a regular incident in any ambush for the absence of the driver's driving license or not completing the papers of the car or any other reason – and that is no doubt a mistake – but what is the danger that he represents on the police personnel in the ambush for the officer to fire bullets directly at the drivers head and hit the passenger next to the driver with two bullets in the back which he died as result of it later, then what happens after that?? The murderer is rewarded by transferring him to the governorate of Cairo!

✱ The second incident an officer shoots a driver of a pickup and kills the driver and his driver and companion also and the aggression doesn't end there but his body is dragged from the car in an inhuman way, what is happening? Why all that? Then what after that? The series of acquitting the murderers continues!

✱ These incidents led to an unprecedented boiling point in the street and demand of trial and punishment and these legitimate demands were faced by disregard from the concerned agencies which increased the state of anger and led to the targeting of the police patrol incident and the death of its elements.

✱ That was followed by a media campaign that portrayed the issue as it is a security breakdown and targeting of the police in Sinai and some accused the Jihadi groups in Sinai – despite that we declared before that targeting the army and police is never from our goals and our arms are aimed at our enemies and the enemies of the Ummah – all that to transfer the matter from crimes committed by the police and disregard from the concerned agencies from the interior ministry and presidency and the reaction of the oppressed citizens, and turning this reality to acts of violence and encroachment on the police.

✱ Therefore we declare the following:

- 1- We demand the quick punishment of who dared to spill the blood of the Muslims without guilt, and those responsible and inciters who are behind them are held accountable.
- 2- The incidents aren't spontaneous but rather they are planned, planned by the agencies that want to return its control and former brutality and oppression, which want to justify itself before the public opinion to return to its previous repressive practices by fabricating events that appear before the public opinion that it is a breakdown and encroachment on the police and army so its inference and violations for the rights and dignity of the citizens becomes a justification and even demanded by those who are unaware for reality of things.
- 3- These events aren't apart from the events in all regions of our dear Egypt, but rather it is one ring and a connected chain of practices that aim to what has been mentioned above from returning the control of the agencies of oppression and injustice from intelligence and State Security and the brutality of the police, by fabricating incidents and exaggerating it and following that with media campaigns to make a state of panic among the citizens and justify the violations of these agencies.

✱ In conclusion we repeat that the problem of the people of Sinai is in disregard and marginalization and not providing their basic needs from jobs and basic services which no man can do without from water, gas, fuel, etc... and also the injustice inflicted on its sons that reach to mass death sentences without evidence and proving the guilt, as well as the enemies from the inside who want to return the oppression and tyranny once again.

As for the external Jewish enemy, your sons the mujahidin with the grace of Allah are watching cutting its limbs and spoiling its conspiracies and ruin its dreams.

(and Allah is the master of His affair, but most people do not know)

وآخر دعوانا أن الحمد لله رب العالمين.
